

# Centre for London – 2015 Funding Report

## About our funding

Our work is funded by a mixture of private, public and third sector organisations, as well as from individual donors who believe in the power of ideas to change the city.

We rely on the support of organisations and individuals to help fund our work, and we receive most of our funding on a project by project basis.

We are committed to being transparent about our funding. Each year we publish a breakdown of our funding, which can be found below.

---
